

DATY.AI PIONEER PROGRAM TERMS & CONDITIONS

Founding Pioneers • Referrals • Promotion • Rewards • Brand • Conduct

Version 1.0

Effective date: 11 September 2026

PROGRAM OPERATOR

ZeeQuest, Inc. d.o.o., Partizanska cesta 3, Maribor, Slovenia (“Daty.ai” or the “Operator”) operates the consumer-facing Daty.ai Pioneer Program. ZeeQuest Technologies and other group companies may support the wider ecosystem, but a Pioneer has no authority to represent or bind any Daty.ai/ZeeQuest entity unless expressly authorised in writing.

CORE PRINCIPLE

A Pioneer is an early community advocate — not an employee, agent, broker, investment adviser, franchisee or authorised spokesperson. Pioneer status creates recognition and participation opportunities; it does not create authority to make promises on behalf of Daty.ai.

Pioneer promise

- Represent Daty.ai accurately and responsibly.
- Invite people genuinely — never through spam, pressure or deception.
- Use approved claims and approved brand materials.
- Protect personal information and referral data.
- Never promise relationship outcomes, investment returns, guaranteed rewards or commercial rights that Daty.ai has not approved.
- Do not bind Daty.ai, ZeeQuest or any affiliate to a contract, price, partnership, Hub arrangement or other commitment.
- Build the movement through real activity, not manipulated accounts or artificial referrals.

1. Purpose and Scope

These Pioneer Program Terms govern participation in the Daty.ai Pioneer Program, including Founding Pioneer status, referral links and QR codes, Pioneer Backoffice functionality, missions, recognition, events, Hub introductions, approved promotional activities and any rewards or benefits expressly made available through the Program.

These Terms are separate from the Daty.ai consumer Terms of Service. A Pioneer who also uses Daty.ai as a consumer remains subject to the consumer Terms, Privacy Policy, Community Guidelines and other applicable policies.

2. Eligibility and Joining the Program

Participation is subject to the eligibility criteria shown by Daty.ai at the time of application or invitation. You must be at least 18 years old to participate in the Pioneer Program.

Daty.ai may require accurate identity, contact, city/country or other information reasonably needed to administer the Program, prevent fraud or determine eligibility.

Joining the Program does not guarantee any particular status, territory, commercial opportunity, reward, Hub approval, event role or future relationship with Daty.ai.

3. Pioneer Status

Daty.ai may recognise qualifying participants as Pioneers, Founding Pioneers, Founding City Pioneers, Pioneer Builders or through other roles/badges introduced by the Program.

Status is a community/program designation. It is personal, revocable, non-transferable and subject to continued compliance.

Founding status may recognise that a participant joined during a defined early phase. It does not by itself create equity, ownership, governance, employment, exclusivity, territorial rights, intellectual-property rights or a right to future compensation.

4. Pioneer Identity, Certificate and Recognition

Daty.ai may issue a digital or physical certificate, Pioneer number/ID, badge or other recognition. Such recognition may identify the Pioneer's name, city/country, date joined and Program status.

Certificates and badges are evidence of Program recognition only. They are not professional licences, securities, financial instruments, employment credentials or authority to contract on behalf of Daty.ai.

Daty.ai may correct, replace or revoke recognition that was issued in error, obtained through fraud or materially misused.

5. Referral Links, QR Codes and Attribution

Daty.ai may provide each Pioneer with a personal referral link, QR code or identifier. Referral attribution is determined by Daty.ai's systems and published Program rules.

A Pioneer must not alter, conceal, spoof or manipulate referral identifiers, create artificial traffic or interfere with another participant's attribution.

Daty.ai may define attribution windows, qualifying actions, duplicate/referral-conflict rules and fraud controls. Where two or more Pioneers claim the same referral, Daty.ai's documented attribution data will be used, subject to correction of clear technical errors.

Referral attribution does not give the Pioneer ownership of, or unrestricted access to, the referred person's personal data.

6. Permitted Pioneer Marketing

Pioneers may share Daty.ai using official referral tools and approved materials and may describe their genuine personal participation in the Program.

Permitted activity can include one-to-one invitations, responsible social sharing, distribution of approved Pocket Cards/A5 teasers, attendance at approved events, introductions of potential Pioneer Hubs and other activities specifically enabled in the Pioneer Backoffice.

Pioneers must distinguish personal opinion from official Daty.ai statements. Where a post or communication could reasonably be understood as commercial or incentivised promotion, the Pioneer must use any disclosure required by applicable advertising/consumer law and Daty.ai instructions.

7. Prohibited Representations

A Pioneer must not make false, misleading, unapproved or unverifiable statements about Daty.ai, ZeeQuest, Relationship Intelligence, technology, science, commercial performance, users, partners, rewards or future plans.

- Do not guarantee that Daty.ai will find someone a partner or improve/save a relationship.
- Do not claim CDMA™, Timing Intelligence, ZeRi, Natal Engine or AI outputs scientifically prove another person's feelings, intentions, compatibility or future behaviour unless Daty.ai has expressly approved the exact claim.
- Do not describe Daty.ai AI as a psychologist, therapist, doctor, lawyer or other professional.
- Do not promise income, commissions, licence value, investment returns, token value, equity or appreciation unless an authorised written programme expressly provides the relevant right and the communication is legally approved.
- Do not claim a partnership, endorsement or Hub relationship exists before Daty.ai has approved it.
- Do not invent launch dates, product features, prices, territories, commercial rights or availability.
- Do not represent yourself as an official employee, executive, authorised agent or spokesperson unless separately appointed in writing.

8. No Authority to Bind Daty.ai or ZeeQuest

A Pioneer has no authority to enter into agreements, accept obligations, negotiate binding terms, collect money, issue refunds, grant discounts, make warranties, appoint Hubs, hire people, engage suppliers or otherwise bind Daty.ai, ZeeQuest Technologies, ZeeCapital or any affiliate.

Only duly authorised representatives may commit a group entity.

If a Pioneer introduces a potential Hub, partner, venue, sponsor, investor or other opportunity, the introduction is non-binding until the relevant authorised entity executes the required agreement.

When publicly describing their role, Pioneers must make clear that they participate in the Daty.ai community programme and are not employees or authorised agents of Daty.ai. Pioneers must not represent that they can enter into commitments on behalf of Daty.ai, ZeeQuest or any affiliated entity.

9. No Investment or Regulated Solicitation Authority

Unless a Pioneer has a separate written appointment that has been reviewed for the applicable regulatory framework, the Pioneer Program does not authorise the promotion, solicitation, recommendation or sale of securities, investments, bonds, financial products, crowdfunding interests or regulated financial services.

A Pioneer must not combine ordinary Daty.ai community promotion with investment-return claims or imply that becoming a Pioneer gives a person an investment interest in Daty.ai, ZeeQuest or any affiliate.

Any separately approved commercial or investment-related programme is governed by its own written agreement and does not arise from Pioneer status.

10. Rewards, Benefits and Missions

Daty.ai may offer badges, recognition, event access, merchandise, service benefits, promotional privileges, referral rewards, mission rewards or other Program benefits.

Eligibility, thresholds and value are governed by the rule displayed for the relevant campaign or mission. Daty.ai may use referral tiers such as 5 / 10 / 25 / 50 qualifying invitations or other thresholds, but a displayed target is not a promise of monetary compensation unless the specific reward expressly says so.

Rewards may be subject to verification, eligibility, tax, fraud-prevention and territorial restrictions. Participants are responsible for their own tax obligations where applicable.

Daty.ai may correct or reverse rewards resulting from duplicate accounts, refunds, chargebacks, manipulation, technical error, ineligible activity or breach of these Terms.

11. No Guaranteed Earnings

The ordinary Pioneer Program is a community and growth program. Unless a separate written compensation arrangement expressly applies, Pioneer participation does not guarantee earnings or payment.

Any examples of activity, referrals, city growth or recognition are illustrative and must not be presented as guaranteed financial outcomes.

12. Pioneer Hubs and Business Introductions

Pioneers may be invited to identify or introduce venues interested in becoming Pioneer Hubs. A referral or introduction does not approve the venue as a Hub.

Hub applications are reviewed by Daty.ai and may require separate onboarding/KYB and Pioneer Hub Terms. Only Daty.ai can grant official Hub status.

Any Hub referral benefit must be expressly stated in the applicable Program rule. A Pioneer may not negotiate Hub pricing, promise free/paid service periods, modify Hub terms or collect Hub payments unless separately authorised.

13. Events and Pioneer Nights

Pioneers may participate in or help promote Daty.ai events and Pioneer Nights subject to event-specific instructions and terms.

Hosting, sponsorship, ticketing, venue commitments, public claims, filming permissions, alcohol/service arrangements and local permits may require separate approval. Pioneer status alone does not authorise a person to contract an event in Daty.ai's name.

14. Brand, Trademark and Content Usage

Daty.ai may provide approved logos, templates, images, videos, copy, presentations, QR assets and other materials ("Program Materials"). Daty.ai and/or its licensors retain all intellectual-property rights in them.

While in good standing, a Pioneer receives a limited, revocable, non-exclusive, non-transferable permission to use current approved Program Materials solely to participate in and promote the Pioneer Program in accordance with these Terms.

Pioneers may not register company names, domains, social handles, trademarks or advertising accounts containing Daty.ai/ZeeQuest branding; alter the Daty.ai logo; create misleading 'official' pages; sublicense assets; sell Program Materials; or imply ownership of Daty.ai IP.

Upon request or termination, the Pioneer must stop holding themselves out as active and discontinue use of Program Materials except for truthful historical references that do not imply current status.

15. User-Generated Pioneer Content

A Pioneer owns original content they create, subject to third-party and Daty.ai rights. If the Pioneer voluntarily submits content to Daty.ai for publication, reposting or campaign use, the submission may grant Daty.ai the licence described in the applicable submission flow or Terms.

Daty.ai will obtain any permission required by applicable law before using identifiable testimonials, event photographs or videos, or Pioneer stories for promotional purposes beyond ordinary Program functionality.

Pioneers must have permission for third-party images, music, testimonials and other protected material they submit.

16. Confidentiality

The Program is primarily community-facing, so ordinary public Program information is not confidential. However, Daty.ai may share clearly identified non-public information with selected Pioneers, including unreleased product details, campaign plans, event information, commercial materials, access credentials or partner information.

A Pioneer receiving information marked confidential, or which a reasonable person would understand to be confidential, must not disclose or misuse it and must protect it with reasonable care.

Confidentiality does not cover information that is lawfully public through no breach, already lawfully known, independently developed, or lawfully received from another source. Legally compelled disclosure remains permitted subject to applicable notice requirements.

17. Personal Data and Privacy

Pioneers must use referral and contact functionality responsibly and in accordance with the Daty.ai Privacy Policy and applicable data-protection/direct-marketing rules.

Do not build private databases of referred users, export personal data without permission, buy contact lists, scrape social networks, upload unnecessary third-person information or share another person's Daty.ai data.

Access to aggregated Pioneer dashboards, maps, waiting-list counts or referral information does not create a right to identify or contact individuals beyond the functionality Daty.ai expressly provides.

18. Conduct and Community Standards

Pioneers are expected to meet a higher standard because their conduct can affect trust in Daty.ai. The Daty.ai Community Guidelines / Acceptable Use Policy applies to Program participation.

Harassment, discrimination, threats, sexual exploitation, fraud, spam, fake profiles, scraping, coercive conduct, abusive AI use, account manipulation and retaliation are prohibited.

At physical events, Pioneers must respect venue rules, personal boundaries, consent and reasonable safety instructions.

19. Compliance With Law and Platform Rules

Pioneers are responsible for complying with laws applicable to their own promotional activity, including advertising disclosures, electronic communications, privacy, consumer protection, intellectual property, tax and event rules.

If using Meta, Instagram, TikTok, YouTube, LinkedIn or another third-party platform, the Pioneer must also comply with that platform's rules.

Daty.ai instructions do not authorise conduct prohibited by law.

20. Independent Relationship; No Employment, Agency or Franchise

Participation does not create employment, worker status, agency, partnership, joint venture, fiduciary relationship, franchise or exclusive distributorship between the Pioneer and Daty.ai/ZeeQuest.

Pioneers choose whether and how much to participate, subject to these Terms. They have no authority to direct Daty.ai personnel or represent that Daty.ai directs their independent personal activities beyond Program rules.

Nothing in this clause overrides rights or classifications that mandatory law determines based on the actual relationship.

21. Costs and Expenses

Unless Daty.ai agrees otherwise in writing, a Pioneer participates at their own cost and is not entitled to reimbursement for travel, events, printing, advertising, equipment or other expenses.

Pioneers should not incur material costs in reliance on anticipated rewards or future opportunities.

22. Program Changes

Daty.ai may evolve missions, referral mechanics, badges, benefits, materials, territories, technology and Program structure. Material changes affecting accrued rights or paid/contractual benefits will be handled subject to applicable law and any specific campaign terms.

Daty.ai will not retroactively remove a reward that a Pioneer validly earned under the applicable published rules, except in cases of fraud, manipulation, technical or administrative error, ineligibility, breach of these Terms or another lawful ground stated in the relevant campaign rules.

23. Suspension and Termination

A Pioneer may stop participating at any time. Daty.ai may warn, restrict, suspend or terminate Program status for material or repeated breach, fraud, manipulation, unlawful conduct, serious brand misuse, safety risk, confidentiality breach, unauthorised representations or conduct likely to materially harm users or the Program.

Serious conduct may justify immediate suspension or termination. Where appropriate, Daty.ai may provide notice and an opportunity to respond.

Termination of Pioneer status does not necessarily terminate the person's ordinary Daty.ai consumer account unless the underlying conduct also warrants action under the Terms of Service or Community Guidelines.

24. Effect of Termination

On termination, the Pioneer must stop presenting themselves as an active Pioneer, cease unauthorised brand use and stop using active Program credentials/tools.

Accrued rewards will be handled according to the applicable reward rules and law. Fraudulent, manipulated or ineligible rewards may be cancelled.

Confidentiality, intellectual-property restrictions, liability provisions and other clauses intended by their nature to survive will continue.

25. Program Disclaimers

Daty.ai does not guarantee Program growth, referral conversion, Hub approvals, event attendance, product launch timing, geographic expansion, public recognition, commercial opportunity or financial benefit.

Roadmaps, targets, city plans, prototypes and pre-launch statements may change. Pioneers must not treat forward-looking Program information as a guaranteed commitment.

Relationship Intelligence and AI-related limitations are further described in the AI & Relationship Intelligence Disclosure.

26. Liability

Nothing in these Terms excludes or limits liability that cannot lawfully be excluded. Subject to mandatory law, Daty.ai is not responsible for a Pioneer's unauthorised promises, independent promotional expenses, third-party platform actions or misconduct outside Daty.ai's control.

A Pioneer remains responsible for claims, content and conduct they independently publish or undertake.

27. Reporting, Questions and Appeals

Suspected Program abuse, referral manipulation, false representation or safety concerns may be reported to pioneers@daty.ai or safety@daty.ai.

Where Daty.ai makes a material Program enforcement decision, it may provide an appeal/review process appropriate to the circumstances and applicable law.

28. Governing Law and Consumer Rights

These Terms are intended to be governed by Slovenian law, without depriving an EU/EEA consumer of mandatory protections available under the law of their habitual residence or mandatory jurisdiction rights.

The final governing-law/dispute wording must be aligned with the final Daty.ai Terms of Service and Slovenian operator details.

29. Changes to These Terms

Daty.ai may update these Terms as the Pioneer Program develops. The current version and effective date will be made available. Material changes will be communicated where required.

Continued participation after an effective update may constitute acceptance only to the extent permitted by applicable law and the notice/acceptance mechanism used.
