

DATY.AI

GENERAL TERMS & CONDITIONS

TERMS OF SERVICE

Version 1.0

Effective date: 10 September 2026

CONTRACTING ENTITY

ZeeQuest, Inc. d.o.o., a company incorporated in the Republic of Slovenia, with registered office in Maribor, Slovenia, company registration no. 8402540000, VAT no. 74140841 (the “Operator”, “Daty.ai”, “we”, “us” or “our”).

Daty.ai intellectual property is owned by and/or licensed from affiliated entities, including ZeeCapital Ltd (UK), as described in these Terms.

Key consumer summary

This summary is for convenience. The full Terms below govern your use of Daty.ai.

- Daty.ai provides Relationship Intelligence tools, including compatibility, timing and AI-generated explanations. It does not guarantee a relationship, compatibility outcome, future event or personal result.
- The available paid plans, prices, billing periods and included features are displayed before purchase.
- Where a subscription is renewed automatically, we will show you the price, billing period and renewal terms before purchase. You can cancel future renewal using the cancellation method shown in your account or purchase channel.
- If you interact directly with an AI feature, Daty.ai will identify the interaction as AI where required by applicable law.
- You must use Daty.ai lawfully and respectfully and must not misuse another person’s information, impersonate others, scrape the service or attempt to manipulate the platform.
- Mandatory EU/EEA and Slovenian consumer rights are not excluded by these Terms.

1. About these Terms and the Operator

These General Terms & Conditions / Terms of Service (“Terms”) form a contract between you and the Operator when you create a Daty.ai account, purchase or use a Daty.ai service, or otherwise use functionality that is stated to be subject to these Terms.

Daty.ai is a technology service focused on Relationship Intelligence. References to the “Service” include the Daty.ai website, mobile or web applications, accounts, reports, compatibility and timing features, AI Advisor or other AI interfaces, subscription features, referral functionality and related consumer services made available by the Operator.

Separate terms may apply to Pioneer Program participation, Pioneer Hubs, business services, events, competitions, promotions or other specialised offerings. If separate terms conflict with these Terms for that specialised service, the separate terms prevail only for that service.

Nothing in these Terms limits rights that cannot lawfully be excluded or restricted under applicable consumer, digital-services, data-protection or other mandatory law.

2. Eligibility and Age Requirement

Daty.ai is intended only for individuals who meet the minimum age shown during registration and who have legal capacity to enter into the relevant contract. You must be at least 18 years old to create an account or use Daty.ai.

3. Accounts, Registration and SSO

You may be able to register using an email address and password or supported single sign-on (“SSO”) providers such as Google, Apple or Facebook/Meta, depending on availability. Use of an SSO provider is also subject to that provider’s terms and privacy practices.

You are responsible for providing accurate registration information, keeping your credentials secure, maintaining control of your authentication methods and promptly notifying us if you reasonably suspect unauthorised access.

You may not create an account for another person without lawful authority, sell or transfer an account, maintain accounts for fraudulent or abusive purposes, or misrepresent your identity.

We may use reasonable technical and organisational measures to protect accounts, including verification, rate limits, security challenges, session controls and account-recovery procedures.

4. Daty.ai Service and Product Functionality

Daty.ai may provide tools designed to help users explore relationship patterns, compatibility, potential areas of alignment or mismatch, timing-related insights, self-reflection and AI-generated explanations. Features may include a Natal Engine, Time Engine/ZeRi-related functionality, CDMA™-based analysis, reports, profiles, comparisons, AI Advisor features and other functionality released over time.

Feature descriptions on the website, application or checkout form part of the information presented to you. The availability and scope of particular features can depend on your plan, jurisdiction, device, product version or rollout stage.

Daty.ai is not a dating guarantee, matchmaking guarantee, background-check service, identity-verification service, medical or mental-health service, legal service, financial service, emergency service or substitute for your own judgement.

Product outputs are informational and interpretive tools. Human relationships are complex and cannot be predicted with certainty.

5. Relationship Intelligence and AI Functionality

Some Daty.ai features use artificial intelligence, machine learning, generative AI or third-party AI models to generate, structure, interpret or explain information. AI-generated outputs may be incomplete, inaccurate, inconsistent or inappropriate for a particular situation.

Where you directly interact with an AI system, Daty.ai will provide the transparency required by applicable law, including informing you that you are interacting with AI where required. AI-generated explanations are not human professional advice and must not be relied upon as such.

Compatibility scores, mismatch analyses, timing outputs, reports and AI explanations do not establish objective truth about a person, prove another person's intentions, guarantee compatibility, predict future conduct or guarantee that a relationship will begin, continue or succeed.

You remain responsible for decisions you make based on the Service. Do not use Daty.ai outputs as the sole basis for decisions that may materially affect your health, safety, legal rights, finances, employment or other high-impact interests.

Additional detail about methodology, limitations, AI transparency and appropriate reliance is provided in the Daty.ai AI & Relationship Intelligence Disclosure, which forms part of the product transparency framework.

6. Free, Paid and Special Plans

Daty.ai may offer a Free plan and paid consumer plans. The available plans, prices, billing periods, included features and applicable taxes are displayed before purchase.

The plan names, feature bundles, billing periods and availability may evolve. A price point stated in these Terms does not by itself promise that a particular plan, feature or billing period will remain available indefinitely.

We may also offer trials, launch offers, promotional plans, Founding/Pioneer benefits, bundled access, vouchers, complimentary access, partner offers or other special plans ("Special Plans"). The specific offer terms presented at enrolment govern that Special Plan in addition to these Terms.

Unless expressly stated otherwise, promotional access has no cash value, is non-transferable and may be limited by eligibility, territory, time, account or campaign.

7. Orders, Prices and Payment

Before you place an order that creates a payment obligation, we will display the material pre-contract information required by applicable law, including the plan or service, total price or pricing method, billing period, renewal characteristics where applicable, and relevant cancellation/withdrawal information.

Prices may include or exclude VAT or other taxes depending on how they are displayed and the applicable purchase channel. We will show you the final amount payable before you confirm the order.

Payments may be processed by third-party payment providers or app stores. We generally do not need to receive or store complete payment-card credentials where payment is handled by an authorised processor.

You authorise the applicable payment provider to charge the payment method associated with your purchase in accordance with the order you confirm. If payment fails, access to paid features may be restricted after any legally required notice or reasonable remediation opportunity.

We may change prices prospectively. A change to an existing recurring subscription will not be imposed contrary to mandatory law and will be communicated as required before it takes effect.

8. Automatic Renewal and Cancellation

Where a paid plan is sold as a recurring subscription, it will renew for the billing period disclosed at checkout until cancelled, unless the offer expressly states otherwise.

Before purchase, we will clearly inform you whether the plan renews automatically, how frequently it renews, the recurring price or how it is calculated, and how you can cancel it.

You may cancel future renewal through the cancellation functionality made available in your Daty.ai account or, where the subscription was purchased through an app store or third-party channel, through that channel's subscription controls. Cancellation stops future renewal; it does not automatically create a refund for a period already supplied, except where required by law or the applicable Refund Policy.

After cancellation, paid access normally continues until the end of the already-paid billing period unless the applicable purchase terms or mandatory law provide otherwise.

We will not use cancellation flows designed to unreasonably obstruct cancellation. We will provide your confirmation of your cancellation in a durable or otherwise appropriate form.

9. Consumer Withdrawal, Refunds and Digital-Service Rights

If you are an EU/EEA consumer, mandatory consumer law may give you a right to withdraw from a distance contract within 14 days without giving a reason, subject to statutory rules and exceptions for services and digital content.

If you request that Daty.ai begin providing the Service during the statutory withdrawal period, we will obtain any consent, express request or acknowledgement required by applicable law separately and clearly. We will not state that you lose a statutory withdrawal right unless the legal conditions for that consequence have actually been satisfied.

Where the Service or digital content is not supplied or is not in conformity with the contract, you may have mandatory remedies including bringing the service into conformity, proportionate price reduction or termination/refund under applicable law.

Refund eligibility outside mandatory rights is governed by the Daty.ai Subscription, Cancellation & Refund Policy and any offer-specific terms presented at purchase.

Nothing in this section removes statutory remedies available to consumers.

10. User Content and Information About Other People

“User Content” means information, text, prompts, answers, profile details, relationship context, feedback, images or other material you submit to the Service.

You retain any rights you have in your User Content. You grant the Operator a limited, non-exclusive license to host, reproduce, process, format and otherwise use User Content only as reasonably necessary to provide, secure, improve and administer the Service and as described in the Privacy Policy. This license does not override data-protection law.

You must have a lawful basis and appropriate authority to provide information concerning another identifiable person. You must not upload private, sensitive or confidential information about another person merely because you are curious about them.

Daty.ai may limit the categories of third-person data that can be submitted, require confirmations, remove content or restrict functionality where necessary for privacy, safety or legal compliance.

You must not use the Service to profile, stalk, monitor, harass, expose, discriminate against or make high-impact decisions about another person.

11. Privacy and Data Protection

Our processing of personal data is described in the Daty.ai Privacy Policy. Cookie and similar-technology practices are described in the Cookie Policy and consent interface.

Where we rely on consent as the legal basis, we will obtain consent that is freely given, specific, informed and unambiguous. You may withdraw it as provided by applicable law. Marketing consent is not a condition of purchasing a service unless communication is strictly necessary to provide that service.

Account deletion, subscription cancellation and withdrawal of marketing consent are separate actions and may have different consequences. The Privacy Policy explains retention and data-subject rights.

12. Referrals, Invitations and Promotions

Daty.ai may allow users to invite others or participate in referral programmes. Referral benefits, thresholds, attribution rules and eligibility are governed by the applicable Referral Program Terms or promotion rules.

You must send invitations only to people you are lawfully permitted to contact. You may not spam, buy contact lists, create fake accounts, manipulate attribution, engage in self-referral where prohibited, make misleading earnings or benefit claims, or present yourself as an employee, agent or authorised representative of Daty.ai.

We may withhold, reverse or cancel referral benefits obtained through fraud, abuse, duplicate attribution, technical manipulation or material breach of the applicable programme terms, subject to mandatory law.

13. Acceptable Use and Prohibited Conduct

You agree not to misuse the Service.

Use Daty.ai for unlawful, fraudulent, deceptive, threatening, abusive, harassing or exploitative purposes

Impersonate another person or misrepresent your affiliation, age, authority or identity.

Upload or disclose personal data about another person without an appropriate lawful basis or authority.

Use Daty.ai to stalk, surveil, coerce, manipulate, discriminate against or endanger another person.

Attempt to infer highly sensitive facts about a person in ways not supported or permitted by the Service.

Scrape, crawl, harvest, copy or systematically extract accounts, reports, profiles, outputs or databases except as expressly permitted.

Reverse engineer, decompile, bypass access controls, probe vulnerabilities or interfere with security, except to the extent a legal right cannot be excluded.

Use bots, scripts, automated accounts or artificial traffic to manipulate referrals, rankings, engagement or platform metrics.

Upload malware, malicious code or content designed to compromise the Service or another user.

Use Daty.ai content, outputs or interfaces to train competing models or build a competing database/service without written permission, except where applicable law grants a non-waivable right.

Resell consumer access, transfer accounts or commercially exploit the Service without an applicable business agreement.

Use the Service in violation of the Community Guidelines or other policies incorporated into your use of a particular feature.

14. Intellectual Property and Licence to Use Daty.ai

Daty.ai, its software, interfaces, design, databases, reports, text, graphics, trademarks, logos, methodologies, know-how and proprietary technology - including CDMA™ and other identified proprietary systems - are owned by the Operator, ZeeCapital Ltd and/or other licensors as applicable.

Subject to these Terms, the Operator grants you a limited, personal, revocable, non-exclusive, non-transferable and non-sublicensable right to access and use the consumer Service for your own lawful personal purposes during the period in which you are entitled to access it.

No ownership of Daty.ai intellectual property is transferred to you. Except where law permits otherwise, you may not copy, distribute, sell, license, publicly exploit, reverse engineer or create derivative commercial products from protected Daty.ai materials without written permission.

Feedback and suggestions may be used by Daty.ai without an obligation to implement or compensate them, provided that personal data contained in feedback remains subject to applicable data-protection law.

15. Third-Party Services and App Stores

The Service may integrate third-party services, including identity providers, payment processors, analytics tools, cloud services, mapping tools, AI-model providers and app stores. Their own terms and privacy practices may apply to their services.

If you purchase through Apple App Store, Google Play or another authorised marketplace, billing, cancellation and refund administration may be subject to that marketplace's rules in addition to mandatory consumer law.

Links to third-party sites do not imply that Daty.ai controls or endorses all content or practices on those sites.

16. Availability, Updates and Modifications

We may maintain, update, improve, add or retire features for security, legal, technical, product or business reasons. We may also modify a digital service supplied over time where the contract and applicable law permit us to do so.

Where a modification materially and negatively affects your access or use, we will provide the notice and remedies required by applicable law. Mandatory consumer rights concerning modifications of digital services remain unaffected.

We do not promise uninterrupted availability. Maintenance, outages, security incidents, third-party failures and events beyond reasonable control can temporarily affect the Service.

17. Suspension and Termination

You may stop using Daty.ai at any time and may request account deletion using the available account/privacy process. Cancelling a subscription and deleting an account are separate actions unless the interface expressly combines them.

We may restrict, suspend or terminate access where reasonably necessary because of material or repeated breach, fraud, security risk, unlawful activity, serious harm to another person, non-payment, misuse of referral systems, legal requirement or protection of the Service and its users.

Where appropriate and legally required, we will provide notice and a reasonable opportunity to remedy before termination. Immediate action may be taken where delay would create material security, safety, legal or fraud risk.

Termination does not affect rights and obligations that by their nature should survive, including accrued payment obligations, intellectual-property protections, lawful records and mandatory consumer/data-protection rights.

18. Disclaimers and No Guarantee of Outcomes

Daty.ai is designed to provide information, analysis, reflection and decision-support tools. Relationship Intelligence is not certainty.

To the maximum extent permitted by law, Daty.ai does not warrant that a compatibility score, timing indication, AI explanation, report, recommendation or other output is complete, error-free or predictive of actual human behaviour or future events.

We do not guarantee that use of Daty.ai will result in meeting a partner, forming or maintaining a relationship, avoiding conflict, improving emotional wellbeing, achieving a particular social outcome or making any specific decision successful.

Nothing in these Terms excludes legal conformity obligations, statutory guarantees or other mandatory rights that apply to digital services supplied to consumers.

19. Liability

Nothing in these Terms excludes or limits liability that cannot lawfully be excluded or limited, including liability where mandatory consumer law, product/digital-service law or other applicable law prohibits such limitation.

Subject to the preceding sentence, the Operator is not responsible for losses that were not reasonably foreseeable when the contract was formed, losses caused by your unlawful or material misuse of the Service, or losses arising from decisions made solely in reliance on an output that the Service clearly identifies as informational or interpretive.

For consumers, no contractual liability cap in these Terms is intended to deprive you of a mandatory remedy. Any limitation will be interpreted only to the extent enforceable under the law applicable to you.

For use outside a consumer context, additional limitations may apply under separate business terms.

20. Indemnity for Business/Non-Consumer Misuse

If you use the consumer Service primarily for business purposes without an authorised business arrangement, or unlawfully use Daty.ai to process, publish or exploit third-party information, you are responsible for claims and losses caused by your own unlawful conduct to the extent permitted by law.

This clause is not intended to impose an unfair indemnity on consumers for ordinary use of the Service.

21. Complaints, Support and Consumer Disputes

Questions, complaints and support requests may be submitted to support@daty.ai or through the support channel identified in the Service. Please provide enough information for us to identify the issue and your account without sending unnecessary sensitive data.

If we cannot resolve a consumer dispute directly, you may have access to competent consumer-protection bodies, courts or alternative dispute-resolution mechanisms available under applicable law. The final Legal Notice should identify any mandatory ADR information applicable to the Operator at launch.

22. Governing Law and Jurisdiction

These Terms are governed by the laws of the Republic of Slovenia, without prejudice to mandatory consumer protections that apply to you under the law of your country of habitual residence where such protections cannot be contractually displaced.

If you are a consumer resident in the EU/EEA, nothing in these Terms deprives you of any mandatory jurisdictional protection available under applicable law. The Operator does not require consumers to litigate exclusively in Slovenia where mandatory law gives them another competent forum.

For non-consumer disputes, separate business terms may specify exclusive jurisdiction.

23. Changes to these Terms

We may update these Terms to reflect changes in law, regulation, security, technology, features, pricing structures, business operations or the Service.

Material changes affecting an ongoing paid relationship will be notified in advance where required by law. If applicable law gives you a right to terminate because of a material modification, that right remains available.

The effective date at the top of the published Terms will identify the current version. We may keep prior versions for transparency and recordkeeping.

24. Notices and Contact Details

Operator: ZeeQuest, Inc. d.o.o.

Registered office: Partizanska cesta 3, Maribor, Slovenia

Company registration no.: 8402540000

VAT no.: 74140841

Customer support: support@daty.ai

Legal notices: info@daty.ai

Privacy contact: privacy@daty.ai

Website: daty.ai

Formal electronic notices may be sent to the email associated with your account where legally permitted. You are responsible for keeping your contact email current.

25. General Provisions

If any provision of these Terms is found unenforceable, the remaining provisions continue to apply to the extent legally possible.

A failure to enforce a provision on one occasion does not waive the right to enforce it later.

You may not transfer your account or contractual rights where the personal nature of the Service makes transfer inappropriate. We may reorganise or transfer the operation of Daty.ai within our corporate group or as part of a merger, financing, acquisition or asset transfer, subject to applicable law and without reducing mandatory consumer/data-protection rights.

These Terms, together with policies and offer-specific terms expressly incorporated into them, form the contractual framework for the relevant consumer Service.
